

This astronomical image shows a field of galaxies, represented by yellow and white pixels on a black background. A dashed white circle highlights a specific region. Within this region, three sources are identified: LoVoCCS-46A, LoVoCCS-46B, and LoVoCCS-46C. LoVoCCS-46A is marked with a blue diamond and a blue arrow. LoVoCCS-46B and LoVoCCS-46C are marked with white arrows. The overall image is a deep-field survey of the MCXC J2223.8-0138 field.
