

This astronomical image shows a field of galaxies, primarily red and yellow, against a black background. A dashed white circle highlights a specific region. Within this circle, two sources are identified: LoVoCCS-48B, marked with a white arrow, and LoVoCCS-48A, marked with a blue arrow and a blue diamond. The cluster is identified as MCXC J1257.1-1724.

LoVoCCS-48B
